Good times and good friends in Oregon

GOOD TO GO

Add fun colors to campfires, rock out as you ride your bike and tote your RV gear in style with these new accessories. **By Tammy Worley**

Trailer Guardian

Prevent the potentially tragic decoupling of a trailer from the tow vehicle as a result of an improperly connected coupler, mismatched ball or equipment failure. Trailer Guardian installs in seconds with a universal application that secures all ball and coupler combinations and has the ability to place a lock in one of the spring pinholes to ensure the linkage of the trailer to the tow vehicle.

David Kiser, a Good Sam Club product tester from Victoria, Texas, says, "This item was easy to install and gives added security for any trailer." **Price:** \$43.99 to \$52.99 **Contact:** DuraSafe Locks, 262-544-5615, www.durasafe-usa.com

Funky Colored Flames

With Funky Colored Flames, you can turn your campfire into a colorful light display. This product creates flames in hues of blue, green and purple, and it can be used in indoor or outdoor wood fireplaces, bonfires and fire pits. Simply place the packet in the fire, and in five minutes colors will spread naturally throughout the flames for up to 30 minutes. Good Sam Club product tester Joey Jelcoat of Orange Park, Florida, says, "This was great for entertaining the kids. They really enjoyed the green flames." **Price:** \$4.99 to \$5.99 **Contact:** Winlow Products, 416-792-0385, www.winlowproducts.com

I-Ride Active Tuner

Ride on two wheels and enjoy your favorite music without tuning out the world and the traffic around you. The I-Ride bicycle safety system is comprised of a butterfly-shaped ministereo speaker with a mounting bracket that fits most bicycle handlebars and stroller handles. It includes a pouch to hold your iPod, MP3 player or portable satellite receiver and an audio line-in cable to connect the player to the speakers. Good Sam Club product tester Jimmie Jenkins of Ventura, California, says, "The ease of use and the quality of construction are excellent."

Price: \$29.99
Contact: Active Tunes, 732-922-2033, www.active-tunes.com

Quikwheel EZ Hitch

This hitch makes trailer hookup a snap. Simply back the vehicle to within a few feet of the trailer. Using Quikwheel's crank wheel and steering column, roll the trailer up to the vehicle hitch. Crank down, and you're ready to go. Quikwheel also works well to reposition trailers during storage or camping. Good Sam Club member Harry Bruce of Yreka, California, tested the device and says, "I'd recommend it for everyone, especially those dealing with health issues. I have arthritis in my hands and had no trouble using Quikwheel." **Price:** \$249.99 **Contact:** Quikwheel, 908-571-3691, www.quikwheel.com

If you wish to have a product considered for publication, send one or more samples of the product and a color photo along with necessary information to Highway, 2671 Vista Del Mar, Ventura, CA 93001.
