Funky flames

Talking around a campfire is a timeless American pastime, but Funky Colored Flames may get some wows from the kids, and maybe the adults, too.

Funky Colored Flames is a packet of crystals that you pour over the top of a fire. The crystals will then start to burn, creating a show of colors that will radiate through the fire for about 30 minutes.

Funky Colored Flames by Winlow Products costs \$4.99. It is available online or at some major retailers.
